

Nun Charged With White Inducing Toral Part of Charges To Slay Obregon Against Gov. Smith

Mexican Authorities Imprison Mother Superior of Convent in Which Assassin is Alleged to Have Concealed Idea of Killing President—Looking for Man Who Furnished Pistol.

Mexico City, July 31 (AP).—Sister Concepcion Acevedo De La Lata is held in a cell at police headquarters charged with having induced Jose de Leon Toral to commit murder. Sister Concepcion, who is about 32 years old and wears her hair bobbed, is Mother Superior of the convent in which Toral is alleged by police to have conceived the idea of assassinating General Alvaro Obregon.

Newspapers today quoted her as having told reporters at police headquarters:

"I hope soon to be executed. I want to be punished."

Sister Concepcion did not admit that she had influenced Toral to slay the president-elect. She was quoted as having added:

"God must have wanted it, otherwise he would not have permitted the crime."

Police in a formal statement, assert that the nun and a man named Manuel Trejo fostered a belief in the mind of Toral that he could solve the religious problems of Mexico by slaying General Obregon. Toral claims that he alone was responsible, although he said the police statement was correct.

Assassin Denies Nun Knew Intention. Sister Concepcion and sixteen other nuns, who were arrested at Guadalupe Hidalgo, were being held today for further examination. Toral said he had visited them frequently in recent months, but asserted that they were ignorant of his desire to kill Obregon.

Police headquarters announced today that they would pay a reward of \$1,000 for the arrest of Manuel Trejo, who is believed to have fled to the United States. He was named as the man who gave Toral the pistol with which he killed Obregon. Describing the alleged connection of the nun and Trejo with the assassination, the police statement said:

"The nun, Concepcion, said in the presence of Toral that the difficulties of the Catholics could be solved by the deaths of President Calles, Obregon and the patriarch at the head of the so-called schismatic Mexican Catholic Church, which denies the authority of the Pope of Rome."

Believed Bomb Attempt Justified. "Eight days before Obregon arrived in Mexico City, Toral had determined to kill Obregon because Toral had become convinced that the November bomb attempt against Obregon had been justified."

Toral was acquainted with a man named Manuel Trejo. Trejo was one of those who caused the explosion of bombs in the Chamber of Deputies last May. Toral knew this Trejo met Trejo at the house of a woman named Maria Luisa Irena Almirante.

Trejo loaned Toral the pistol with which he killed Obregon. Trejo also gave Toral eighteen cartridges and taught Toral how to use the pistol.

Toral practiced with this pistol in a canyon behind the church of Guadalupe (the shrine of Mexico's patron saint, near Mexico City).

Crowd Prevented Earlier Attempt. The statement next recited how Toral, posing as a photographer when Obregon made his triumphal entry into Mexico City on Sunday, July 15, was at the railroad station with his pistol ready. He was unable to get close enough to shoot because of the crowd.

From Sunday until the following Tuesday, when he assassinated Obregon, Toral hung around the Obregon headquarters, his victim's home and other places where he hoped to find the president-elect.

The police statement asserted that during this time Toral saw Trejo at the residence of a Catholic woman which was "rendezvous for Toral, Trejo and the Catholic nuns who are detained at present." The statement continued:

"During this time Toral also was with the president, Joe Jimenez. Toral also went to the home of the nun, Sister Concepcion, where he received mental fortitude from her."

Dr. O'Leary III in New York

Dr. John G. O'Leary of 131 Fair street is in St. Vincent's Hospital, New York city, suffering from an illness with which he was stricken on Thursday. The attack came upon Dr. O'Leary very suddenly and is said to be of a serious nature.

SQUEAL DEMONSTRATION AGAINST NOBILIT SURVIVORS

Munich, Germany, July 31 (AP).—An incident demonstration against General Umberto Nobile and the other survivors of the Italia was squelched by police last night when the special car in which they are traveling to Italy reached here.

Nobile paid no attention and left the car to talk with members of the Italian colony who greeted the airship crew. The rescued men were accompanied with flowers and fruit.

Kansas Editor Considers it Unfair to Question Motives of Governor in Voting Against Reform Bills—Affecting Gambling and Prostitution—Tammany and Open Saloon Are Coming Issue.

New York, July 31 (AP).—William Allen White, Kansas editor, today withdrew his charges against Governor Smith's legislative record so far as bills governing gambling and prostitution were concerned because, he said, he did not wish to question the motive of the Democratic presidential nominee.

While allowing his contention that Governor Smith had consistently voted for the saloon to stand, Mr. White said of his other charges, "I could not in good conscience press this issue, realizing that Governor Smith, whom I greatly admire for his many high qualities, feels that my charges question the purity of his motives, which always should be granted in any political controversy."

Mr. White's Statement.

Mr. White said in his statement: "Yesterday, talking to Walter Lippmann of The World, a friend of Governor Smith and of mine for many years, I learned that Governor Smith was deeply aggrieved that I should charge him with protecting gambling and prostitution in his assembly record. I can understand, after considering what Mr. Lippmann said, that the governor in casting those votes against those reform bills might honestly have felt that the bills were unconstitutional, or were not enforceable, or infringed upon personal liberty or encouraged police blackmail."

"But Governor Smith certainly is entitled to fair treatment. I always have tried to fight fair. I have never consciously questioned any man's motives and so this morning before the morning papers have come and before I know what, if any, reply Governor Smith has made to my statement of yesterday, I desire to withdraw the charges formally insofar as they affect his votes on gambling and prostitution, but not his position as to the saloon."

Issues Are Tammany and Saloon. "On the question of the menace of Tammany and of Governor Smith's Tammany record for the open saloon, the whole issue of the campaign is coming."

"Organized, protected prostitution is quickly passing out of American life and that issue is not vital, but vital or not I could not in good conscience press this issue, realizing that Governor Smith, whom I greatly admire for his many high qualities, feels that my charges question the purity of his motives, which always should be granted in any political controversy."

"So the ten or a dozen votes on gambling prostitution come out of the record. I hope now American newspapers, and particularly Republican newspapers, will give the same consideration to this statement that they gave to my statement yesterday."

Hoover to Confer With Farmers

Representatives of Farm Relief Sentiment in Midwest to Meet Candidate at Cedar Rapids, Iowa, When He Visits That State in August.

Chicago, July 31 (AP).—A conference between the Republican presidential nominee, Herbert Hoover, and representatives of the farm relief sentiment in Iowa and other midwest states has been arranged for August 22 and 23 at Cedar Rapids, Ia. It has been announced at western campaign headquarters here.

James W. Good, western campaign manager for Mr. Hoover, said in making the announcement that "the real problem now is in meeting the Iowa farmers."

The Republican nominee, Mr. Good stated, would make no public address in Cedar Rapids, but would devote his time to conferences with farm leaders who have sought to discuss the agricultural situation with him.

A public mass meeting has been arranged for the evening of August 22, to be addressed by other speakers.

Dates for the conferences were fixed to coincide with Mr. Hoover's return to the village of his birth, West Branch, Ia., where he is to speak August 21.

Leaders in the fight for farm relief during recent years will be asked to attend the Cedar Rapids conferences. Mr. Good said, so that the Republican nominee may have the benefit of their views in the shaping of a farm program that will prove acceptable.

It was indicated that representatives of the corn belt committee, which has for its aim the improvement of agricultural conditions, would be invited to take part in the conference.

Former Governor Kills Himself.

Salt Lake City, Utah, July 31 (AP).—John C. Cutler, 82, banker and former governor of Utah, shot and killed himself Monday.

Contributions of \$1,550 for Legion Drum Corps Trip

Further Enthusiastic Response Expected to Appeal to Send Kingston Boys to San Antonio, Texas—Local Organizations Plan Benefits—List of Contributions Received.

Philip Elmer, Arthur H. Wickes and Harry E. Schrick will act as a citizens' committee for the collection of the \$1,550 fund necessary to send the American Legion drum corps to the national convention in San Antonio, Texas. Senator Wickes, who offered his services recently to the Legion for the purpose of raising the money, is treasurer of the committee and contributions should be sent to him. Mr. Wickes reports that the following contributions are among those so far received:

John D. Schoenmaker	\$250.00
Philip Elmer	100.00
Arthur H. Wickes	100.00
Edward Corbould	100.00
Herbert E. Thomas	100.00
F. B. Matthews & Co.	100.00
Chamber of Commerce	100.00
Harbour J. Pratt	100.00
David Terry	50.00
Ross & Gorman	50.00
Uptown Business Men's Association	50.00
Downtown Business Men's Association	50.00

Henry D. Fischer	25.00
D. N. Matthews	25.00
Fessenden Shirt Co.	25.00
L. S. Wine & Co.	25.00
A. T. Clearwater	25.00
Saugetries Tissue Co.	25.00
Apollon Magneto Co.	25.00
Holly R. Cantine	25.00

A total of \$1,550 has so far been contributed to this fund by public spirited citizens.

Generous Response Expected.

It is expected that this appeal will meet with an enthusiastic and generous response and that the local boys will proudly carry the banner of Kingston, N. Y., in what is expected to be the biggest and best American Legion parade ever staged in this country. Kingstonians may rest assured that the local boys, both as to performance and appearance, will attract great attention not only to themselves but to the city they represent.

Marching in the parade, in which the local drum corps expects to be one of the shining lights, will be Legionnaires from every state in the Union, as well as from Legion departments all over the world. More than 150 Legion hands and drum corps will take part in the parade.

It is expected that it will take from five to six hours for the parade to pass the reviewing stand, which will be on the plaza of the historic Alamo. General John J. Pershing, Colonel Charles A. Lindbergh and other notables of the nation will review the parade.

Different local baseball clubs are planning benefit games for the fund to send the Kingston Legionnaires to this parade, and societies and organizations and citizens are all planning ways and means to push the fund over the top.

Small as well as substantial subscriptions are welcome. They should be sent to the Hon. Arthur H. Wickes, 243 Clinton avenue, Kingston, N. Y.

City Assessment Roll Completed

City Assessor Charles Lahl has completed the city assessment roll and the same may be viewed at his office in the Central Fire Station until Tuesday, August 21, which will be Grievance Day, when those who feel that they have been aggrieved in their assessments may call at the office and talk it over with the city assessor.

While he was en route, the flood gates at the hydro electric plant upstream were opened and the river rose rapidly with an increase in the swiftness of the flow. The water became very muddy and the fishing was ruined.

Friends Help in Best Program. It was well after dark before Mr. Hoover returned to the cottage of a friend where he is staying with half a dozen close friends who are doing their utmost to carry out his program of complete rest and recreation without interference from any source.

There is no telephone in the cottage and the nearest one is on a country line nearly half a mile away. On his return to Stanford Thursday Hoover will put the finishing touches on his acceptance address.

He had worked for days and weeks on his declaration of issues in the coming campaign and desired to get his mind completely off of it before looking it over for final decision.

While Mr. Hoover likes this place, he indicated that unless he had success in fishing today he would move to the Pitt river, in the general vicinity of Mount Shasta—the towering snow-covered peak which was in sight for a short time yesterday while the party was going over the summit of the first of the Siskiyou range.

Compensation Hearing. Refuses L. A. Kilburn, representing the labor department of the State Industrial Commission, will hear claimants for compensation under the employers' liability act on Saturday morning at the supervisors' room in the court house, this city, beginning at 9 o'clock.

Tilston Picnic and Sale. The Friends' Church of Tilston will hold their annual picnic and sale on the church grounds on August 8. If stormy, it will be held on the next fair day. Many fancy and useful articles will be on sale, also refreshments.

Coolidge Hears About Philippines

Vice-Governor of Island, Gives Executive Expert Interpretation of Affairs There—Secretary Jardine Favors Agricultural Tariff Increase and Strengthening Cooperative Marketing System.

Superior, Wash., July 31 (AP).—An expert interpretation of Philippine affairs was available to President Coolidge today from E. D. Clements, vice-governor of the Philippines, who had requested an appointment with the chief executive while in this country on leave. Mr. Clements was preceded on Mr. Coolidge's calendar by E. D. Clements, Republican national committeeman from Missouri, who has been spending his summer vacation not far from Superior and who asked to be allowed to present his respects to Mr. Coolidge.

Aside from the questions which the engagements with these two visitors brought up, Mr. Coolidge gave much thought today to agricultural reports which he received yesterday from Secretary Jardine of the agricultural department. The cabinet officer left late yesterday to resume his journey to Alaska.

Mr. Jardine reported good crop and price conditions over all the United States, adding that the live stock industry shared the general well being. Conditions, however, might be still further improved and stabilized, the agricultural secretary thought, by a "substantial agricultural tariff increase all along the line," and by encouraging and strengthening the cooperative marketing system.

Despite his positive ideas as to how farming conditions could be improved and his authoritative information regarding agricultural feeling in various parts of the country, Secretary Jardine said that he would not confer with Secretary Hoover while on the Pacific coast. Their discussions, although relatively close, did not cross, it was explained.

The cabinet officer would not reveal what reports he had conveyed to Mr. Coolidge regarding the farmers' attitude toward farm plans in the Republican or Democratic platforms.

Hoover Fails To Land Trout

Hydro Electric Plant and Photographers Blamed For Poor Luck—Attains One Objective in Being Isolated From Politics.

Brown's Camp, near Hornbrook, Cal., July 31 (AP).—Little luck has come the way of Herbert Hoover, Republican presidential candidate, thus far in his quest for fish in the remote places of northern California and southern Oregon. But he has attained one objective of his 650 mile automobile ride from his home at Stanford University—that of isolation from politicians and things political.

Although casting in two rivers—the Rogue in Oregon and the Klamath in California—the commerce secretary failed to land a trout. A hydro electric plant and photographers were given a large part of the credit for his disappointment during the first of the three days he is to spend angling here before getting back to the work of the campaign.

After the cameramen had spoiled his outing on the Rogue in the morning, the nominee tried his fortunes on the Klamath in the afternoon, driving 85 miles down the river without letting any of them know he had departed.

While he was en route, the flood gates at the hydro electric plant upstream were opened and the river rose rapidly with an increase in the swiftness of the flow. The water became very muddy and the fishing was ruined.

Shults Takes Over McMillan Strand Store

Richard Shults Takes Old Established Business on Strand Which Was Established by Late Archibald McMillan and Continued by Late Charles McMillan.

One of the most important business changes in the downtown section of the city was estimated this afternoon when the old paint, rope and glass business of the late Charles McMillan was transferred to J. Richard Shults.

This business was established years ago by the late Archibald McMillan and has been successfully operated by McMillan & Sons and has since been carried on by McMillan & Heile and later taken over by the late Charles McMillan.

Mr. Shults, the new owner, is a Hamilton College man and a son of Superior John C. Shults of Saugetries. He was formerly associated with the Philadelphia Suburban Counties Gas & Electric Company at Ardmore, Pa., where he has been acting as sales manager. Mr. Shults plans to continue carrying the same high grade of merchandise as handled by the business in the past.

The store has been restored with a good assortment of Duco and other paints, oils, varnishes, brushes, glass, rope and other marine supplies.

250 Pickets in Jail After Clash

National Guardsmen Surprise Mob of Ten Thousand by Pouring Out of Station With Fixed Bayonets—Few Stones Hurlled.

New Bedford, Mass., July 31 (AP).—Two hundred and fifty mass pickets today were confined in the central police station as the result of a clash with authorities that eventually called out a company of Coast Artillery to disperse at bayonet point a jeering mob of 10,000 persons in one of the most turbulent demonstrations of the 16-week textile strike.

Long into the morning the prisoners continued to shout and sing in their crowded quarters at the station while radical leaders of the textile mills committees urged their companions under arrest to embarrass authorities still further by refusing to apply for or accept bail.

Those under arrest were operatives affiliated with the labor group opposed to the New Bedford textile council, the recognized union body, which has consistently refused to take part in the demonstrations which have involved police clashes.

Many were taken into custody in a wholesale roundup of pickets before the Whitman mill early last night. The big vans of patrolmen made a quick dash to the scene after authorities had been defied by Fred E. Beal, an organizer for the textile mill committees, tooust the picket line.

Beal, who had just completed a sentence in the house of correction, was taken in the clasp of the first picket line. A second line, which soon formed, met a like fate and when the police returned for a third time they captured another textile council group of 21, headed by Josephine Kanzer, Salem girl, who has been active in organizing Polish workers.

No Serious Resistance Encountered. Some resistance was encountered but none of a serious nature. Earlier in the evening two raids had been made on picket lines at the Kilburn mill, where the 119 pickets arrested included Augustus C. Pinto. It was Pinto's eleventh arrest.

As news spread of the wholesale roundup, a crowd estimated at 10,000 gathered about the police station. Chief of Police Samuel D. McLeod then called upon Harry E. McLeod of the coast artillery while deputy sheriffs forced their way into the throng to read the riot act.

The National Guardsmen surprised the mob by pouring out of the station with fixed bayonets and although a few stones greeted their arrival the crowd was quickly pushed back and the streets cleared for two blocks in all directions. An eye-witness report that a man or woman had been wounded by a soldier's bayonet temporarily caused fresh excitement.

Parents Arrested, Children Wander. Police found complications in several cases where both parents had been arrested, leaving large families of small children to wander in the streets or seek shelter from neighbors. The cases were referred to the Children's Aid Society.

While the so-called "Radicals" were contending with police the textile council met and voted to submit to its constituent unions the question of arbitrating the strike as proposed last week by the state board of arbitration and conciliation at a meeting attended by representatives of labor and manufacturers.

The unions were expected to make known their decision by Thursday night.

Two Cars Collided. Floyd W. Powell of Pine Grove avenue reported to the police Monday that his car was in collision that day with a car driven by Fred Seymour at Fair and Pearl streets. Both cars were slightly damaged.

Rondout National Bank To Have New Building

Frank S. Campbell Awarded General Contract and Work Will Be Started August 1—Plans for Remodeling Bank Drawn by Architect Gerard W. Betz—Brief Description of New Building.

Frank S. Campbell of this city has been awarded the contract for remodeling the Rondout National Bank and work will be started the first of August. When the new building is completed the bank will have the largest floor space of any banking institution in the city. To enlarge the bank the three-story brick building on East Strand will be torn down and connected with the bank, which is located on Ferry street in the building in the rear of the structure. A East Strand. Work of remodeling the bank will not interfere in any way with the business of the bank.

The structure that will be torn down to make room for the new bank addition housed two stores and the Bank Arcade which has been used as the downtown bus terminal. The second floor was occupied by the offices of Dr. A. A. Stern, while the third floor was used as living apartments. This three-story brick building is now vacated. Benjamin W. Johnston, who had a drug store in the building, is now located in the former theatre building, several doors further down the street, while Isaac Abrahams, who had a millinery store in the adjoining store, has retired.

New Bank Entirely Modern. The new bank when completed will extend from the Strand to Ferry street and will be modern throughout. It will be equipped with a modern vault which will be installed by Herring, Hall & Marvin Safe Company of New York city.

Plans were drawn by Architect Gerard W. Betz for the remodeling of the Rondout National Bank building on Strand and Ferry street. Growth of the banking business has made it necessary for the building to be remodeled so as to give additional room and the entire building will be occupied by the bank. The present arcade will be eliminated and the space now used by the arcade will be used for a lobby and additional working space. Johnston's drug store will occupy a new and up-to-date store in the east end of the building. The drug store front will be rebuilt so as to harmonize with the new front which will be placed in the bank on Strand.

Main Entrance on Strand. The main entrance to the building will be on Strand at the west of the building and there will also be an entrance from Ferry street. The entrance and lobby will go to the west of the building with the cashier's wickets and working space to the east occupying the space from Strand to Ferry street. When the work is completed the Rondout National Bank will have one of the finest banking houses in the city, modern in every way and capable of taking care of the increasing business.

Remove Upper Floors. On Strand the front will be rebuilt and the new banking floor will be 15 feet in height from floor to roof. At present the building is a three-story building. The two upper floors will be removed and the banking house ceiling raised. The Ferry street front will remain the same as at present, having been rebuilt but a few years ago.

Install New Vault. A new and modern vault will be built fitted with the latest type of time locks. There will be two compartments in the vault, one for the storage of currency and bank property and the other will be a storage vault for use of customers.

The fixtures in the bank will be new and up-to-date with a new banking screen extending from the front to the rear of the bank. There will be six teller's windows.

Provisions are made for a private room for the president and also for the cashier. Large coupon rooms and director's room are included in the plans and there will be six coupon booths for the convenience of customers.

The Strand front will be rebuilt of brick and stone in a very pleasing design with columns running up to the roof.

Conferences for Customers. Provisions are made for ladies' rooms for the convenience of women depositors at the bank and numerous details for the convenience of customers are provided for.

The equipment will be new, and modern electric lighting, heating and plumbing systems will be installed.

While the drug store of B. W. Johnston will be separate from the banking house, it will be in the same style of architecture and will tone in with the banking house front.

Bremen Elder Has Appendicitis. Bremen, July 31 (AP).—Baron Gunther von Haeften, owner and supercargo of the trans-Atlantic liner Bremen, was operated on for appendicitis today. His condition was reported satisfactory.

LYONS TO MANAGE LUCAS AVENUE PARK. James R. Lyons of 56 John street has taken over the management of the Walton Park and Pavilion on upper Lucas avenue. Parties will be held every Sunday, weather permitting, and a special attraction will be clambakes and the serving of luncheon and sandwiches to picnic parties.

On Sunday, August 12, the second annual clambake of the Jim Johnston Club will be held at the park, and other outings are scheduled to take place in the near future.

Two Cars Collided. Floyd W. Powell of Pine Grove avenue reported to the police Monday that his car was in collision that day with a car driven by Fred Seymour at Fair and Pearl streets. Both cars were slightly damaged.

Compensation Hearing. Refuses L. A. Kilburn, representing the labor department of the State Industrial Commission, will hear claimants for compensation under the employers' liability act on Saturday morning at the supervisors' room in the court house, this city, beginning at 9 o'clock.

Tilston Picnic and Sale. The Friends' Church of Tilston will hold their annual picnic and sale on the church grounds on August 8. If stormy, it will be held on the next fair day. Many fancy and useful articles will be on sale, also refreshments.

City Assessor Charles Lahl has completed the city assessment roll and the same may be viewed at his office in the Central Fire Station until Tuesday, August 21, which will be Grievance Day, when those who feel that they have been aggrieved in their assessments may call at the office and talk it over with the city assessor.

A number of young people from this village conducted the service of

the Christian Endeavor Society of the Clintondale Friends Church Sunday evening, July 22. Those who took part are as follows: Kenneth Taber, Sidney Taber, Miss Laura Clarke, the Misses Lois and Ruth Taber, Gerald Clarke, the Rev. Cecil Haworth. Those who attended the service from Milton were Mr. and Mrs. F. H. Clarke, Mr. and Mrs. Irving Clarke and daughter, Miss Mary Taber, and Mrs. William Lals.

Local people had the pleasure of seeing the dirigible Los Angeles pass over this village on its way to Oneida last Wednesday morning, also on its return to Lakehurst, N. J., in the evening.

Friday evening, August 3, the Ladies' Needlecraft will hold its annual fair and food sale at the home of Mrs. Birdsall Taber.

The steel work on the new Milton cold storage plant was completed the past week. Work on the roof will be started this week. Frick compressors have been installed and the ammonia pipes are ready to be set up. The present directors of the company are Frank Hill of North Rose, Walter R. Clarke, J. Westervelt Clarke, and C. J. Hepworth of Milton and F. P. Hart of Red Hook. Mr. Hart is president, C. J. Hepworth vice president, George Hildebrand of Highland secretary and treasurer.

A large theatre building is to be erected at the Elverhoj Art Colony Park. It is planned to accommodate nearly a thousand patrons. Contractors and designers are already at work on the site. The building will be completed this coming fall.

On account of the storm Friday the Ladies' Aid Society was compelled to postpone their annual fair 'till Saturday afternoon and evening.

Miss Helen Field of Brewster, N. Y., was a week end visitor at the home of Miss Ruth Taber.

Mrs. Frank McNicholas is visiting her parents in New York city.

Mr. and Mrs. Birdsall Taber and daughters visited at the Finger Lake region during the past week.

Mrs. Theodore Rhoades and granddaughter were visitors at Rhinecliff last week.

Mr. and Mrs. Winfield Bailey and Mrs. H. H. Hallock have returned from a vacation trip to New Hampshire.

Prof. D. M. Warren visited at the home of his sister at Pine Hill during the past week.

THE FINE CAR OF LOW PRICE

Al Capone Linked In Yale Murder

Police Declare Weapons Came From Arsenal of Chicago Blackstone—Capone Said to Have Returned to Chicago.

New York, July 31 (AP)—Police announced today that they had positive information that the weapons with which Frankie Yale, Brooklyn gangster, was shot to death in a quiet Brooklyn street, came from the "arsenal" of "Scarface" Al Capone, Chicago racketeer.

The history of the weapons, a machine gun, a shot gun and a magazine pistol, was revealed, it was said, during a conference this morning between District Attorney Dodd of Brooklyn, Police Inspectors Sullivan and Coughlin, Parker A. Henderson, Jr., son of a former mayor of Miami, Fla., and Police Chief Reeve of Miami.

Shot at Wheel of Auto.

Yale, or Yale, was shot down on July 1 as he sat at the wheel of his automobile near his Brooklyn home by gangsters who drove past in another car. The weapons used by the killers were found later in an abandoned automobile bearing a Tennessee license.

Yale was said by the police to be formerly associated with Capone but to have broken with him some time before the killing. Henderson and Chief Reeve arrived in New York last night and considerable mystery was thrown about their presence.

Guns Shipped to Capone.

Police said that they learned today that the guns had been purchased in Chicago and shipped to Capone in Miami. Police said they also learned that at least four Chicago gunmen had been in conference with Capone at his Miami home shortly after the shipment of the weapons. These gunmen, it was said, after leaving Capone purchased railroad tickets for Chicago, making a point of showing the tickets to various railroad employees and other persons in Florida.

This exaggerated display of tickets to Chicago, police said, was an obvious manufacture of an alibi. Instead of traveling to Chicago, it was asserted, the gunmen came directly to New York, arriving shortly before the slaying. Police said the gunmen were instructed at Miami to "get Yale." Detectives announced that they soon hope to have these gunmen placed under arrest on a charge of murder.

Henderson Not Under Arrest.

Police did not explain Henderson's connection with the investigation beyond saying that he was a former friend of Capone. When the arrival of Henderson and the Miami police chief was first learned, police were emphatic in saying that although Henderson was here in connection with investigation of the Yale killing he was not under arrest and would not be arrested.

Capone Not in Miami.

Miami, Fla., July 31 (AP)—"Scarface" Al Capone, Chicago gangster, whose name is linked by New York police with the slaying of Frankie Yale, or Yale, Brooklyn gangster, July 1, has left his home here. The caretaker said Capone and his family have returned to Chicago.

TEXAS DEMOCRATS BEGIN REALIGNMENT.

Dallas, Tex., July 31 (AP)—Realignment of political forces began in Texas today with nearly complete tabulation of votes in Saturday's Democratic primary making certain a runoff primary August 25 for United States Senator and Lieutenant Governor.

Governor Dan Moody was renominated by a majority exceeding 120,000 votes over three opponents, two of whom had aligned themselves with the national ticket "bolt" element.

Senator Earle B. Mayfield, seeking reelection, and Congressman Tom Connally, who ran a second round, will enter the national runoff, while Lieutenant Governor Barry Miller will face State Senator Thomas B. Love in the lieutenant governor race. State Senator J. D. Parnell, entrenched in third place in the lieutenant governor's race, declared he would work for renomination of Miller because he was disappointed of Love's renomination of the national ticket.

Love had declared he would not vote for Governor Alfred E. Smith and was active in the anti-Smith state campaign to carry the state for Herbert Hoover in November.

PEEKSKILL THEATRES RUNNING FULL BLAST.

Peekskill is apparently having a hard time trying to enforce its laws concerning the holding of Sunday amusements. Last Sunday Pendelo Amusement Park, a new amusement enterprise, was formally opened although denied a permit for Sunday operations.

The village trustees, who had ordered all sorts of Sunday amusements closed, were outwitted when the amusement park obtained a state license from the State Department of Agriculture and opened up in full blast.

The picture theatres are also open Sundays because the owners have a motion picture pending in Supreme court for an injunction.

Initial Dividend Declared.

New York, July 31 (AP)—Consolidated Gas Utilities Company, operating in Oklahoma and Kansas, declared an initial dividend of 23 cents share on the "A" stock, payable September 1 to holders of record August 24. It covers the period from July 6 to September 1. Further dividends will cover full quarterly periods, cumulative at the rate of 25 cents quarterly, or \$2.20 a year.

Dance at Shokan.

The regular weekly dance will be held at Winchell's Hall, Shokan, this evening. Music will be furnished by Zucca and Parcell's four piece orchestra.

Douglas Lowe Wins 800 Meters

Olympic Stadium, Amsterdam, July 31 (AP)—Douglas Lowe of Great Britain today won the 800 meters final in the Olympic games, retaining his championship won in 1924. Among others he defeated the American star, Lloyd Mahan.

Lowe won by ten yards from Byelin of Sweden. Mahan led until the final turn, when he wobbled and was badly beaten.

Lowe's time in a beautifully run race in which he outdistanced the field was 1 minute 51.4 seconds, breaking the Olympic record by 1.2 seconds. Herman Engelhardt of Germany was third, Phil Edwards of Canada fourth, Mahan fifth and Seraphin Martin of France sixth.

Ed Hamm of the American team won the broad jump, setting a new Olympic record.

The women's discus throwing final was won by Hilena Kozopacka of Poland with Lillian Copeland of the United States second.

Elizabeth Robinson of the United States won the 100-meter final for women.

Olympic summaries:
800-meter final: Won by Douglas Lowe, Great Britain; second, Byelin of Sweden; third, Herman Engelhardt, Germany; fourth, Phil Edwards, Canada; fifth, Lloyd Mahan, U. S.; sixth, Seraphin Martin, France. Time, 1 minute 51.4 seconds. (New Olympic record).

Market for Fruits And Vegetables

New York, July 31 (AP)—(State Department of Agriculture and Markets).

Lighter arrivals of southern potatoes combined with fairly good demand caused a slight price advance in a firmer market. Increased receipts of southern sweet potatoes brought a sharp price slump in a decidedly weaker market. Virginia No. 1 cobbles peddled out at \$1.62 1/2 @ 2.25 per barrel. Georgia No. 1 yellow sweet potatoes wholesaled at \$5.00-9.00.

Upland New York lettuce was in lighter supply. The market was a trifle firmer on fancy. Demand was fairly active. Sales on crates of two dozen heads of big Boston were at \$1.00-3.00 per crate, principally \$1.75-2.50.

Of 236 carloads of lettuce received on this market the preceding week, New York State contributed 243. The remainder originated in California and Washington.

Supplies of green peas from upstate were lighter. Fancy light green stock was in demand and the market on that kind closed slightly firmer. Madison county offerings in bushel baskets peddled out as high as \$2.50 and as low as \$1.00. Last week's pea receipts amounted to about 157 cars and were almost exclusively from this state.

Fancy tender string beans met a moderate outlet, but coarse and spotted stock received scant attention. Sales on green varieties were at \$1.00-2.00 per bushel basket. Wax beans sold up to \$3.00.

The celery market closed dull and values averaged a shade lower. Supplies were moderate and demand slow. Celery in the rough, packed in two-thirds crates, jobbed out as high as \$5.00 and as low as \$1.00.

Arrivals of Catskill mountain cauliflower were moderate. A large volume was unattractive. Sales ranged from \$1.00-5.00 per crate.

EAST KINGSTON BOY'S CONDITION CRITICAL

Jerry Ansonia, the 10 year old East Kingston boy who sustained a fracture of the skull when the band wagon in which he and two other boys were coasting down a hill in that village, upset, hurling them out, is still in a very critical condition at the City of Kingston Hospital. The two other boys, John Lucel and James Furco, were reported in fair condition. They were not as seriously hurt as Jerry.

Kellogg to Sail August 18.

Paris, July 31 (AP)—Secretary Kellogg has sent word to Foreign Minister Briand that he will come to Paris to sign the multilateral treaty renouncing war, sailing from New York on the French liner Ile de France on August 18. The ship will reach Le Havre on the 24th, which will be several days in advance of the signing of the treaty, the date for which has not yet been fixed definitely, but which will be either August 27 or 28.

Mr. and Mrs. Charles Braby of High Woods spent the past Sunday with Mr. and Mrs. Victor Longendyke on Upper Washington avenue.

Frederick Haner and Albert Horowitz, both of New York city, were arrested on Sunday by the state troopers charged with reckless driving and both forfeited a cash bail of \$10.

FIRST WOMAN BAREBACK RIDER FOUND DEAD

Batavia, N. Y., July 31 (AP)—Roulette de la Mar Toulant du Pre, said to have been the first woman bareback rider in the world, was found dead today in the cottage where she had lived alone for several years.

Born in Nassau, Que., in 1841, the youngest of 16 children, she joined the P. T. Barnum Circus at the age of six. In 1865 she was married to Charles Wither, of Baltimore, then a lion tamer with the Dan Rice Shows.

One-Legged Boy Rescued.

Albert Charles, 16, of Poughkeepsie, who had his left leg amputated above the knee ten years ago, swam to the assistance of Frederick Seftis and rescued him from drowning in the Manchester Pleasure Park pool Sunday. A policeman helped take the half-drowned boy out of the water.

31 Indicted for "Dry" Violations

New York, July 31 (AP)—The federal grand jury handed down indictments today naming 31 defendants alleged to have conspired to violate the prohibition laws in connection with the operation of night clubs. These indictments closely followed another batch yesterday in which 104 defendants were named. Among those indicted today was Tommy Guinan, brother of Texas Guinan, night club hostess who was among yesterday's defendants.

Yesterday's indictments referred to the activities of 18 night clubs in the Broadway district and today's indictments dealt with eight more. All the indictments are the result of wholesale raids conducted recently by Washington enforcement agents under orders from Mrs. Mabel Walker Willebrandt, deputy United States attorney general.

The evidence was gathered by the agents, posing for months as men about town and patronizing the night resorts in evening clothes.

Notices of indictment were mailed today to all the persons indicted yesterday and their attorneys were also notified. It was believed that they would be arraigned Monday.

The fact that several judges are away on vacation it was believed would delay trials until early fall.

Extra Feature at Broadway Theatre.

In addition to Chester Conklin in "The Big Noise", a comedy feature, there will be a second feature picture at the Broadway Theatre Thursday, Friday and Saturday of this week. The second feature will be Tim McCoy in "The Law on the Range". A good bill of vaudeville vaudeville will complete the program for the last three days of this week. Next week, commencing August 5 and for four days, Delores Del Rio in "Ramona" will be the feature.

Little Girl Injured.

Shirley Dubnor, 4, of Brooklyn, was admitted to the City of Kingston Hospital Monday evening for treatment for injuries received when the child and her parents were riding in an automobile near Shokan and the car they were in was in collision with another car. Several stitches were necessary to close the little girl's wounds. None of the other occupants of the car were injured.

Official Spokesman Barred by Will Rogers.

"If elected I pledge myself that I will not have any Official Spokesman."

Another ringing declaration of campaign principles has been made by Will Rogers, in the foregoing words bearing on his race for President as the candidate of the Anti-Bunk Party, for which he was recently nominated by Life, the humorous weekly, and fifteen distinguished Americans, including Henry Ford, Nicholas Murray Butler, Ring Lardner, Harold Lloyd, William Allen White and Judge Ben Lindsey.

In his weekly appeal for support Rogers today says:

"Preparatory to starting an aggressive campaign—which will carry the war right into the enemy territory—I owe it to the Anti-Bunks who have nominated me for President to set up my stand to date."

"I want it understood first of all that my platform is made out of planks carried in by voters. Anybody with ten votes can have a plank, and that policy is already getting us a lot of support. We are also leaving room between planks for any wise-cracks that we think should be inserted. So here is my most important plank to date:

1. "Our support will have to come from those who want NOTHING and have the assurance of getting it."

2. "Whatever Hoover or Smith promise you, we'll raise 'em at least 20 per cent."

3. "We've eliminated party leaders, slogans, bull-headed luncheon clubs, vice presidents, conventions and gold pants. Probably we'll eliminate a good many other so-called political necessities before election."

4. "We absolutely promise to make no effort to get votes by sex."

5. "Our plank on the liquor question is: 'Wine for the rich, beer for the poor and moonshine for the drunks.'"

6. "We will not only give the farmer seed, we will cure him of being a farmer."

7. "The matter what's on our platform now (on November 5 we will have a headline and burn the platform."

8. "I also pledge myself that if elected, I will not have any Official Spokesman."

9. "And speaking of Spokesmen, it looks to me like the voters will begin to get the idea that the Republican candidate is Doc Work and the Democratic candidate is Johnny Raskob. What the voter really has got to do is choose between Al Smith, the city slicker, and Herb Hoover, the honest country boy. And that just naturally lines 'em up for the comedy candidate."

PENALTIES AND CRIME

It appears from New York's record that the Baumes laws went into effect that heavier sentences do tend to deter crime and reduce crime. These statistics enacted two years ago have been designed to check crime by making punishment more certain and more severe, by abolishing the commutation of sentences, raising the minimum and maximum penalties, and by making mandatory a sentence of life imprisonment for a fourth conviction of a felony. Although endorsed by judges, prosecutors, police officials and organizations combating lawlessness, these provisions were denounced by "students of crime" as unscientific, vindictive and futile. But a report now issued by the New York Crime Commission shows results that may at least be described as promising.

It appears that cases of murder and manslaughter have been reduced from 348 in 1925 to 278 in 1927, that in the same period cases of assault and robbery have been reduced from 1,482 to 951, and cases of burglary from 4,103 to 3,350. Such material reduction unquestionably tends to prove that greater severity of punishment has a deterrent effect, confirming the view of the author of the Baumes laws that if you "catch the criminal, give him a prompt trial, impose an adequate sentence and see that he serves it" there will be wholesome results, and justifying the Crime Commission's conclusion: "If a reduction in the number of serious crimes is a measure of the effectiveness of the enactments for the protection of the public, there is every reason to feel encouraged." In addition there is testimony by one of the leading surety companies that under the Baumes laws there has been a steady decrease in the number of burglary insurance claims and in the amounts of losses paid.

CAMPAIGN HUMOR.

Not a little unconscious humor in campaign utterances may be found by the reader or listener non-partisan enough to be amused. For example a dry Southern clergyman is quoted as saying that he had to tell the Democratic ticket because of his loyalty to the "pure womanhood of the South". A Northern Republican woman is said to insist that the American people will not suffer as President "a man who will adopt a beer keg as the White House coat of arms". More than one other Republican woman has been heard declaiming, in effect, that Mrs. Smith as the "first lady" of this fair land would be a calamity from which the country must be saved at all costs. A disgruntled delegate to the House of Representatives has written to Governor Smith and Chairman Raskob: "The best thing I can suggest is for both of you to resign before you get the dullest licking that any one ever got in a Presidential election." Almost as funny is the Empress, Kaiser, Grotte's solemn and pained inquiry:

However, is farm-born and farm-bred. Why should the farmers turn from one of their own people, an orphan raised in the Middle West, working his way through college as a writer and day laborer? Why should they turn from him to a man who never spent a day on the farm, who held a political job since he was 19 in Tammany Hall?

At this rate, by the end of the campaign some unhappy Cassandra will be dolorously predicting that if Hoover or Smith according to the "pollster" embraced is elected the moon will turn to green cheese overnight.

Hoops is a lucky land in some respects. King Fred recently signed a decree, advocated by the ministry, which suspends Parliament for three years. The principle reason for the dissolution of Parliament, leaders say, was that only by such action could the country be rid of factional political conflicts and have time to settle down. Granting that there are many times when many citizens here would like to dissolve Congress for an indefinite period, still and all on second thought, the Egyptian way looks a little high-handed. DIGESTION.

You have perhaps heard of the Russian scientist, Pavlov, and his experiments on dogs.

At the feeding bowl he rang a bell and the dogs learned to expect their food when the bell rang, and the digestive juice of the stomach immediately began to flow.

He was able to show that the very sound of the bell was sufficient to cause a flow of this stomach juice. The ear of the dog associated feeding time with the ringing of the bell.

It has been demonstrated also that the very sight of food is sufficient not only to cause the digestive juice of the mouth to flow, but the digestive juice of the stomach also.

Likewise also the smell of food can make the stomach digestive juice flow.

And you know of course that the taste of food will do so also. Thus we see that the eye, the ear, the nose, besides the tongue, all enter into the matter of appetite and the actual digestion of food. And this of course simply means that the brain enters into this matter of digestion to a very marked extent.

Now whether the brain enters into it or not the stomach juice will flow when food enters the stomach. In fact if a rubber ball is put into the stomach and partly fills it, the walls of the stomach will try to churn it the same as if it were food, and juice will flow. But you see when the brain enters into it by the use of the eye, the ear, the smell, and the taste, the juice actually flows into stomach from the glands in its walls before food ever enters the stomach. Thus by the time the food does reach the stomach it has already a fine reception committee awaiting it in the form of a large amount of digestive juice. No wonder that this juice digests this food in a short time when it gets such a wonderful start.

What is the lesson? That food should be made attractive in appearance, that it be fresh and with an attractive odor, and that surroundings be quiet. Because just as these can cause the stomach juices to flow freely, even so can unattractively served food, suspicious odors, and jangling dishes or voices, prevent the flow of the stomach juices.

Surely this knowledge should be of great use to us.

were recent guests of Mrs. Kittle.

Alfred Taylor of Connecticut is a guest at King's Lodge on Friday.

Can Do Without Soil
If flowering plants are kept in soil without soil, they ordinarily will become the concentration of insects made in two weeks. That they do not need soil for life was shown recently when such plants were raised in water.

Come On In—The Mileage is Fine

New features in the NEW STUDEBAKERS

... See them now

Ball bearing spring shackles—a new and exclusive Studebaker feature. Greatest improvement in motor car comfort since the balloon tire! Freedom of spring action never before considered possible. No squeaks, rattles and adjustments. Each shackle contains lubricant for upwards of 20,000 miles—a great advance over any other system of chassis lubrication.

Dramatic proof of the ease with which these new Studebakers may be driven is offered by the remarkable records recently established by girls driving under official A. A. A. supervision at Atlantic City Speedway. For 500 miles, these girls with only ordinary experience maintained an average speed of 70 miles per hour in The President Sedan, 58 in The Ensign, 60 in The Dictator and 77 in The Commander Roadster.

Even the brief glimpse of these smart new Studebakers, as they flash past on open road or boulevard, tells its story of rare body artistry and low, fleet lines.

But come in now and examine, at your leisure, the repeated evidence of Studebaker engineering genius, expressed in the luxury, comfort and performance of these splendid motor cars!

Then drive one. You may have owned a dozen costly cars, but you'll find that in these new Studebakers American inventive

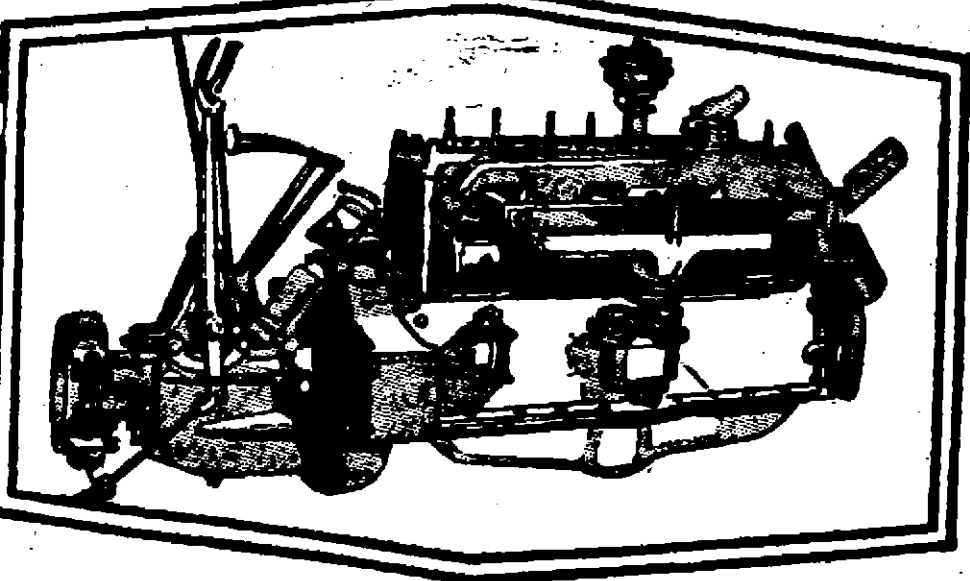

genius has surpassed them all. No other car ever built can give you such a wonderful ride.

Only a few of the great Studebaker achievements are pictured here. There are many more. No matter how much or little you plan to invest in your new car, you will want to see them. Come in today!

News From the World on Wheels

Net profit of the Franklin Automobile Company for the six months ending June 30, 1928, after all adjustments, provisions for taxes, preferred and common stock dividends, nearly equaled the net profit before preferred dividends in the first six months of 1927, according to a statement issued by executives of the company. The strong cash position of the company is shown in the statement that on July 19, after payment of the common dividend, every dollar of current liabilities was represented by \$1 in cash and securities. The common dividend of 50 cents a share was paid on July 20.

Climbing four full minutes off the same course, J. S. Dunn, a Gardner owner of New Orleans last week, drove his Gardner "52" convertible coupe Lycoming powered car, from New Orleans to Baton Rouge (city limits), 105 miles, in the record-breaking time of 106.5 minutes, and at a speed of 1.02 miles per minute or 61.2 m. p. h. incidentally, Dunn and his Gardner smashed all authenticated records between the two cities. Baker, according to newspaper records, drove a stripped five-cylinder over the same route in 2 hours and 2 minutes three years ago, whereas Dunn with his strictly stock car, with top up and in no way equipped for racing, or extra running, covered the course in 106.5 minutes or less than 2 hours. The average touring time for the run is 2 to 2.5 hours.

Addition of a sport touring car to the Victory Six line has been announced by Dodge Brothers, Inc., the body being leaf mould brown trimmed in beetle green. Upholstery is tan shark grain leather. Standard equipment includes six wire wheels, the two spares being mounted in welled front fenders with trunk rack in rear.

Graham Brothers school bus sales for 1928 to date are forty-eight per cent greater than they were for the same period in 1927 according to a statement just issued by Dodge Brothers, Inc. School bus sales during the whole of 1927 were thirty-six per cent greater than 1926.

After August 1, all Chrysler "65" cars will be built in the company's Detroit Jefferson avenue plant. Removal of the "65" output from the Chrysler Highland Park plant is necessitated by the steadily growing demand for the new Chrysler-Plymouth and by the large production of the new DeSoto Six—announcement of which will be made next month. Simultaneously, the company will put in operation at its Jefferson plant the most modern assembly building in the industry. This new unit consists of a two-story mezzanine structure 1,000 feet long which has been added to one of the main buildings of that plant to make a total assembly line of 1,400 feet.

An immediate increase in sales ranging from 100 per cent to 300

per cent is reported by Pierce-Arrow distribution centers as demonstrating the enthusiasm with which the present price reduction on Series 41 models was greeted by the buying public. In New York city cars of the price reduction was marked by a 200 per cent increase in sales over the previous week. While in Philadelphia the sales here were up as high as 200 per cent. In Pittsburgh even greater attention and sales followed announcement of the new prices, in one day the Series 41 cars being delivered and orders taken.

Dynamite was manufactured in the United States in 1867. It had been used as early as 1805, having been imported. A factory for its manufacture was established in Stockholm in 1861.

USED CARS are opportunities

**-A used car
is unused transportation-**

A GOOD automobile may be likened to a "package" containing so many thousand miles of transportation.

Only occasionally are all of these miles used by one owner. The American custom of turning in a car after an average use of two years, brings into the market every year several million "used cars." And these offer opportunities which more people are appreciating every year.

The cars accepted by General Motors dealers in trade vary in name, body style and price. Some have seen sturdy service; in others the potential mileage has been scarcely touched. There is a wide field of choice for families wanting transportation at the lowest possible cost, or wishing to own a car of a higher price class.

Particularly do used cars present an easy way of owning a second or third car.

Examine the used cars in the stores of General Motors dealers, and purchase the car of your choice on the convenient GMAC Payment Plan.

ready-to-wear kind. It is comforting to know that the dressmaker type is more often than not a ready-to-wear product, for all its individuality of treatment and its complication of detail and design.

The diagonal treatment of seams and tucks, while far from new, remains a popular type of decoration. Irregular treatments of all kinds are thoroughly approved. The influence of this is in no way more obvious than in collars, which have in some instances taken on width by being pointed at the shoulder or by some arrangement that calls attention to the collar as an important addition to the gown. There are many scarf arrangements, both for dresses and the coats that accompany them.

The best thing about published radio programs is they give warnings of what stations are going to broadcast political speeches.

Fashions follow the heroes of the air, as styles in women's hats frankly admit. Huenefeld may yet succeed in popularizing the monocle.

There seems to be a trend among some of the churches to unite and fight the devil, instead of remaining apart and fighting each other.

It may be true that cats are color blind, but there certainly is plenty of color in their serenading, particularly when it occurs in duet form.

The market tipster always finishes with the warning, "Don't gamble!" thereby asserting sagacity in forecast, while evading moral responsibility.

**Kerchief Scarf Leads
Chic, Youthful Touch**

The kerchief scarf is an important part of the charming outfit by Doris Dawson, the featured motion picture player. Miss Dawson's dress is of white silk which she wears so smartly in "Here Comes the Band." The dress is notable for its simplicity of line and its youthful appeal. A hand-blocked batik designed scarf is of paramount importance in making the outfit chic. A white felt hat of vagabond lines is most becomingly chosen to complete the outfit.

**On Rearing Children
from CRIB TO COLLEGE**

Compiled by the Editors of "CHILDREN," The Magazine for PARENTS

The supreme ambition of every parent should be to inspire in the child a love of truth that will make him strong in the face of temptation and fearless when he is right.

If your child is not eating his meals as you believe he should, do not force him to eat. His mental attitude will affect the assimilation of food. First, allow him to go food between meals. Second, offer at first small amounts of temptingly served dishes, and by example, induce him to eat the variety of foods his body needs. Gradually he will learn to enjoy green vegetables every day, to be satisfied with fruit as a dessert, and to drink plenty of milk.

An interesting game for children is to set them to finding out the source of each thing they wear, eat or use

on any one day. The answers can be found in an encyclopedia or in amazing works of reference. Another game might be to find out what kind of food products go to the country, sending these various things in the way the child would come to realize the interdependence of nations.

Vacation time should be a time for "making repairs." Long before the end of the summer every parent ought to have his child examined by a pediatrician and a dentist. Our schools are expensive, and children who are often absent through the school year because of sickness become economic liabilities to the community. The school class program is made for sound, healthy children.

Parents in all stations of life will do well to remember that worries about money matters are not so much in proportion to how much or how little the money one may have, but rather how sensibly or how foolishly one disposes of what one has. A child can learn to distinguish between sensible and foolish expenditure by an opportunity to spend money and to profit by his mistakes.

The home must see to it that children are allowed to go to the theater often enough to learn to prefer the best plays to inferior types of entertainment. The same principle holds true of good music and good art.

Permanent habits of cleanliness are fostered not by punishment for lapses or by the payment of temporary rewards, but by helping the child to realize the sense of well-being that cleanliness contributes.

For the older child of five or six years gingham or cotton prints make attractive sun suits. To get the most complete benefit from the sun, light-colored fabrics are best. Thin, open-meshed white cotton fabrics are the most successful transmitters of the active rays of the sun. As the temperature climbs to eighty degrees it is safe to let the youngster play in the sunny part of the garden in his own garment for several hours a day. However, a long exposure of this kind should be worked up to gradually. If the small toddler is put in the sun for two hours on the first hot day, a sick child with a blistered skin will be the result. Tanning should be brought about even in healthy children by gradual exposures. On very hot days, ninety degrees or more, some protection for the head is advisable.

Cursing With an Object

Certain priests, chosen for their virtuous habits, were appointed to utter public curses by the ancients, and this custom is still practiced by the Arabs. Public cursers among the Arabs copy the ancient ritual by uttering their maledictions with one shoe on and a bare foot resting upon a block of stone. Their duty is to curse the crops in order to assure a good harvest.

U. & D. Schillings Defeat Gasco In Series Game

U. & D. Schillings eliminated Gasco from the Industrial League Series, defeating them 5-7—Two stolen bases in last inning decided the game.

The first elimination contest of the Industrial League to decide a winner of the first half, which brought together the U. & D. Schillings and the Gasco, ended rather abruptly with a win for the U. & D. Schillings on a day evening. The two teams played a large crowd at the Athletic Field as their first throughout the struggle, especially in the sixth inning. It was getting quite dark when the U. & D. Schillings came to bat in their half of the sixth after the Gasco had staged a three-run rally to take a one-run lead.

After Black struck out in this inning Steve Connelly singled. Then an argument started as to who should bat next. After three or four minutes of discussion both teams decided on Joe Dulin to substitute for Connelly. Smedes, the next batter, hit to Miller, who fumbled the ball and made a wild throw which put Dulin on third and Smedes on second. Long was given a base on balls and the bats were loaded.

Hoffman, who was catching for the Gasco, left home plate unprotected when he started to walk to the pitcher, and Dulin seeing his chance made a break for home. A close play followed and the runner was declared safe, but the Gasco thought different, and protested the decision. In the mean time Smedes had also stolen home with the winning run.

Jimmy Doyle started the game for the Gasco and lasted but three innings. He got through the first and second innings with some good support from his teammates, but in the third he was touched for six runs, 12 men facing him. He handed out four free passes and four hits. Three errors also helped the combination team. Whitaker was Doyle's relief man.

Black held the Gasco without a hit or run until the fourth inning. In this inning Knight greeted him with a single and Flanagan and Miller also hit safely. An error and a base on balls coupled with the three hits gave the Gasco four runs.

The sixth was a big inning for both teams. The Gasco came to bat on the small end of a 6-4 score and crossed the rubber three times to take the lead. Hits by Miller, Whitaker, Hoffman and Knight and a walk to Quinn gave the Gasco their runs. The U. & D. Schillings then made their rally to win the game after the much discussed decision.

The win gives the U. & D. Schillings the right to play the winner of the Apollo-Columbia game and eliminates the Gasco from the series.

Wood, the Gasco's first baseman, was spiked in the third inning, but after treatment was able to continue in the game.

Sickler had a bad start in the first inning by missing a double play on Quinn's toss. He redeemed himself on the next play by engineering a fast double play.

Quinn made his first error of the season when he booted Hornbeck's grounder in the second inning.

Koenig All-Stars to Play at Wallkill.

The Koenig All-Stars will travel to Wallkill Wednesday evening where they will cross bats with the team of that community. The fame of the Kandy Kids, who lost but one hit this season, has spread rapidly and clubs of the outlying district are seeking their opposition on the diamond. Komosa or Warian will do the hurling for the Koenigs. The team will leave Beebe's pool room on Haabrook avenue at 5 o'clock. Every member is requested to be there at that time so the team may get started on scheduled.

Saddle Horse Champion

"Play Boy" chestnut gelding 1925, Kenneth E. Archer up, saddle horse champion of Dutchess County Horse Show 1925 to be exhibited again this year in saddle horse and jumping classes by Mr. Archer at the annual Dutchess County Horse Show held in connection with the Dutchess County Fair at Rhinebeck August 22-23.

Kenneth E. Archer, one of Kingston's greatest horse lovers, will enter at least five horses in the annual Horse Show held in connection with the Dutchess County Fair at Springbrook Park, Rhinebeck, August 22 and 23. Among them will be "Play Boy", saddle horse champion of the Dutchess County Horse Show for 1925.

There are 44 classes and 16 cups have been donated as prizes for the show. Included in the classes are a saddle horse, jumpers, ponies and others. The Dutchess County Horse Show is one of the largest and best horse shows along the Hudson river.

Pan-Ams to Face West N.Y. Red Sox

Conquerors of Former Centrals, Kingston's Picked Nine, to Play Here Again as Opponents of Olmen Sunday—Pan-Ams at New Palz Friday.

Manager McNally of the Pan-Ams is priming his team for two hard contests, one to be played Friday with the New Palz nine at the Normal School community and the other with the West New York Red Sox Sunday, on the Pan-Am diamond, Saugerties road. It is expected that the olmen will be seen in action by a goodly number of fans on both occasions with the Sunday tilt reining as a crowd pleaser.

The Friday evening's mixup to be played at New Palz at 6:15 is really a tester to make the Pan-Ams ready for the West New York Red Sox conquerors of the Central Baseball Club, which disbanded early in the season. After the tilt Coach Artie Rice, sheriff of Ulster county, will likely hold a long session with the olmen to approve their playing or bring attention to the weak points. The McNally aggregation will listen most attentively to the sheriff for the Pan-Ams wish to take the bacon from the West New York Red Sox.

It will be a pleasure for the Pan-Ams to make a stab at overcoming a team which the Centrals failed to down. The Centrals were classed as Kingston's representative ball club owing to the fact that most of the players had made reputations on the diamond previous to the formation of the nine. The Pan-Ams banded together some time ago and have been steadily climbing the ladder of success together. Their setbacks have been few and for this reason Manager McNally decided to unleash his chargers against the West New York Red Sox.

The team will come to Kingston from Newburgh. They are scheduled to meet the McKinley Brothers nine in the killy city Saturday. This team has a good reputation in Orange county and it is the wish of Newburgh fans to have their team's calibre measured by a tilt with the Red Sox.

Carpenter, ace of the Pan-Am hurling staff, will likely do the hurling in the Sunday game against the West New Yorkers here.

Black will be held in reserve. Paul Joyce, who hurled the Kingston High School Varsity to first place in the DUSSO League, has been signed by the Pan-Ams. He will don a Pan-Am uniform for the Sunday game. Jimmy Merritt has also put his name on the olmen's roster. The addition of these two players, who played with the team on previous occasions, is expected to play a big hand in making the game with the Red Sox more interesting.

PRESBYTERIANS WILL PICNIC ON AUGUST 11

The annual outing and picnic of the Sunday school of the Rondout Presbyterian Church will be held on Saturday afternoon and evening, August 11, at the Y's Men's Club at Glenrie. The outing will be in the nature of a basket luncheon, each family taking their own baskets. A committee of the officers and older scholars of the school have been appointed to arrange for transportation to and from the outing grounds.

YELLOW JACKETS TO MEET AT THE Y. M. C. A. TONIGHT.

A meeting of the Yellow Jacket football team will be held in the Y. M. C. A. this evening at 7 o'clock. Plans will be discussed concerning the coming season. It is requested that every player who represented the team last year and others who are interested attend the meeting.

Valley May Lose Konchina

Eddie Kelly and Leo Smith, Kingston promoters of the 34-round boxing card to be presented at Woodcliff Park, Poughkeepsie, on Thursday, August 2, may be the last Hudson valley men to engineer an event in which Frankie "Kayo" Konchina will fight. Konchina, who is to meet Charlie Eck in a 10-round setto on the coming card, had his hopes of aspiring to higher title altitudes strengthened Monday night when Eddie "Ghost" Clark, whom he recently kayoed at Woodcliff in four rounds, hit the canvas in the fourth from a hefty wallop dealt by Leo Lomski, heavyweight contender, at Dexter Park.

Lomski's accomplishment is expected to stimulate a big advance in tickets sales for the Woodcliff bouts. Konchina's admirers, who claim he will be in the spotlight, after a successive string of victories, in a short time, will be eager to see the outcome of his mixup with Eck. Also a number, who have been attracted by his heralded prowess in the squared circle, are expected to attend the Woodcliff show. Indeed Konchina will meet one of the toughest opponents of his career in Charlie Eck of Syracuse. He has a sterling record, which attracted Kelly and Smith, who had to look elsewhere than in the Hudson valley to procure an opponent for Frankie. Konchina has eliminated all opponents he has met from the vicinity of the famous Hudson.

Joe Vosdick, well-known in this vicinity, has made it known that he would like a bout with Konchina. The outcome of his meeting with Al Ferone of Beacon at Woodcliff on August 2, will have a great bearing on a match. Vosdick and Ferone are scheduled to do six rounds.

Tickets for the bouts may be obtained in this city at S. Cohen's Sons, Leotta's barber shop, Bob Freer's and Murphy's news store.

MONBACUS

Mombacuss, July 31—Miss Mildred Quick of Walden is spending the summer at the home of Mr. and Mrs. Ben Markle.

Mrs. Edward Schwab, who underwent a serious operation at the Ellenville Hospital, is improving slowly.

Mrs. Golden Markle spent Thursday at Ellenville.

The prayer meeting will be held in the church on Thursday evening at 7:30.

Their will be an entertainment given by the young people in the church on Saturday evening, August 4, at eight o'clock. After the entertainment ice cream and cake will be served. Everyone is invited to come and make this a success as the proceeds will be used toward repairing the church.

Cigarette Growth.

Liggett & Myers Tobacco Company now has in operation four large cigarette factories, located at Richmond, Va.; Durham, N. C.; Philadelphia, Pa.; San Francisco, Cal., and in addition to other brands, the sales of Chesterfield cigarettes alone are over twenty-eight billion a year. It is also stated that Chesterfield is an international brand, and that in a letter received from a passenger on one of the around-the-world cruises, the information was disclosed that in practically every port visited Chesterfields were not only on sale, but were the leading American brand in that city.

Heat From the Sun

The Naval observatory says that a theory recently suggested to account for the sun's heat is that it is due to some subatomic process, such as the mutual destruction of electrons by collision, resulting in the transformation of their mass into energy, and thence into heat.

"OLD GOLD has the most on the ball" says Lou Gehrig in Blindfold cigarette test

LOU GEHRIG... Stellar first baseman of the New York Yankees... runner-up last year to his team-mate, Babe Ruth, as champion clover of four-bag hits.

Babe Ruth is the "King of Swat" ... Low of the big smile is Crown Prince of Baseball.

What cigarette's got the most on the ball? ... well, you can tell that with your eyes closed. For when Old Gold stepped into the box in the third inning of the Blindfold Test, I said without a moment's hesitation that it was smoother ... milder, than any of the other three brands.

Lou Gehrig

Lou was asked to smoke each of the four cigarettes, clearing his taste with coffee between smokes. Only one question was asked: "Which one do you like best?"

Why you can pick them ...

Three types of leaves grow on the tobacco plant, coarse top-leaves, irritating to the throat, withered ground-leaves, without taste or aroma ... and the heart-leaves rich in cool and fragrant smoking qualities. Only the heart-leaves are used in Old Gold.

AMERICAN DAVIS CUP TEAM TO RETURN WEDNESDAY.

Paris, July 31 (AP)—The American Davis Cup team sails homeward on the steamship Paris tomorrow without the Davis Cup, but they carry with them the respect and admiration of French tennis fans for the gallant and sporting battle they put up against the three defending French Musketeers, Henry Cochet, Rene Lacoste and Jean Borotra.

Big Bill Tilden, the leading American ace and ace producer, never was so popular in downright victory as he is now in 50-50 defeat. His straight-set defeat at the hands of Cochet yesterday will remain in French fans' memory for years to come as one of the greatest court battles in tennis history. It was Big Bill's first straight set beating in his nine years of Davis Cup play, but he put up as gallant a battle as he did in his victory over Lacoste in his singles match on Friday.

The picture of Tilden and Cochet, after their bitter battle, shaking hands and congratulating one another, seemed like the signing of a Franco-American peace pact.

And now a German actress plans to fly from Germany to America. It is to be hoped that she doesn't land in Labrador, because if there's anything an actress can't stand, it's a frost.

Tagging Major League Bases

(By Herbert W. Barker, Associated Press Sports Writer)

The complete collapse of the champion Yankees pitching staff in the last week or so has cut what was an eleven game lead over Connie Mack's onrushing Philadelphia Athletics to five and a half games.

Since July 22 the Yankees have won three games and lost eight. Over the same period the A's have won seven and lost one, a net gain in nine days of five and a half games.

The Yanks dropped their third straight game to the Indians at Cleveland yesterday, 4 to 2, when Miller outpitched George Pipgras. It marked the longest Yankee losing streak of the year and Pipgras' second defeat in as many days.

Babe Ruth, who has been hitting singles and doubles for a week in an effort to get the Yanks out of the rut, shifted to his specialty and saved the champions from a shutout when he poled his 41st homer of the year with Combs on base in the sixth inning. The blow put him 24 games, 28 days and seven homers ahead of his 1925 pace.

Meanwhile at St. Louis the Athletics were trimming the Browns, 5 to 4, and registering their seventh straight victory. The Browns got 15 hits off Rommel and Walberg but couldn't translate them into runs.

It was the A's eighth consecutive triumph over the Browns, who lost a series of five games at Philadelphia.

The Boston Red Sox fell deeper into the cellar when the Detroit Tigers gave them another drubbing, 2 to 1, in a tight pitchers' battle between Ken Holloway and Ed Morris. Harry Rice's homer in the ninth settled the battle.

The National League standing underwent some drastic changes as the New York Giants replaced the Chicago Cubs in third place and the Pittsburgh Pirates ousted Brooklyn from fifth. The two leaders, the St. Louis Cardinals and the Cincinnati Reds, held their relative positions, however, for both picked the same day to lose.

Jim Faulkner held the Cubs to four hits and the Giants, aided by home runs by Hogan and Ott, crashed through to a 4 to 1 triumph. Cuyler's homer saved the Cubs from a shutout.

The Pirates advanced to fifth place, trimming the Boston Braves in both ends of a double drubbing, 2 to 1, and 6 to 5, in 10 innings. Kramer outpitched Ed Brandt in the first game. Triples by Paul Waner and Pie Traynor decided the second. Burleigh Grimes going in as relief for Carmen Hill, getting credit for his 17th victory of the season.

The Phils required 16 innings and four hours to subdue the Cardinals, 8 to 7. Fred Leach crossing the plate with the winning run on a single by Virgil Davis, Cardinal cast-off, Bob McGraw, another ex-Cardinal, received credit for the Phil victory.

Left-handers held the stage at Brooklyn, where Jess Petty shaded Eppa Rixey and gave the Robins a 2 to 1 verdict over the Reds. Babe Bressler, former Red, drove in the winning run in the sixth.

Discus throw (women)—Finals.

Yesterday's features:
Lord Burghley, Great Britain, captured 400-meter hurdle finals, defeating Cabal and Taylor of United States.

Percy Williams, Canada, won 100 meter dash final, Frank Wykoff, first American to finish, placed fourth; Bob McAllister sixth and last.

Hammer throw championship went to Patrick O'Callaghan, Ireland; Edmund Black, United States, placed third; other Americans, Don Gwinn and Frank Conners, fifth and sixth.

Lloyd Hahn qualified for 800 meter finals as did Earl Fuller and Ray Watson; Johnny Stittg eliminated along with Dr. Otto Peltzer, German star.

Elizabeth Robinson only American to qualify for 100 meters for women.

Yankes foil fencers eliminated in semi-final round, but wrestlers all passed first tests successfully.

Highbinders Lose To Red Sox, 10-2

The Red Sox swelled their victory record by winning over the Highbinders 10-2 at Block Park Monday evening. The game, an interesting tilt, was viewed by a goodly number of fans, most of whom were Highbinder rooters.

The winning hurler was Cipesco, who tossed a brand of ball that kept the Highbinders swinging with no avail. The slants were received by Louis Carpinlo, regular catcher. Tommy Coughlin made his first appearance in some time on the mound for the Highbinders. Tommy's absence from the box told on his hurling arm towards the end of the game, when he was relieved by Bill Joy. Hoffman did the receiving.

Kantrowitz Will Celebrate His 25 Years in Kingston

North Front Street Clothier Tells of Development of Business From Small Beginning—Plans to Enlarge Buildings—Receives Congratulatory Messages—Begins Silver Jubilee Anniversary Sale Thursday.

The rise to success of one of the Hudson valley's leading business men is a story of hard work, faithful service, honest merchandise and fair prices.

It was in the summer of 1903 that David Kantrowitz, then a young man, met other friends of the road and chat and pass the time. One night one of the salesmen introduced a newcomer to the regular crowd. He was in the shoe game. Let Mr. Kantrowitz tell the story in his own way:

"He asked me, 'Dave, how is it that you don't handle shoes?'"

"From that little beginning of 12 pair of shoes, Mr. Kantrowitz has developed this into a department doing one of the largest volumes of popular priced shoe sales in Ulster county with a stock of over 2,000 pairs of shoes and the largest stock of first quality A. A. grade boots, rubbers and heavy articles in the Hudson valley."

Added Another Building.

The opening of a shoe department necessitated the acquiring of the store at 48 North Front street, and this was used as the shoe department. Successive changes saw the increase the clothing department and an addition was built for this. An addition was also added to the shoe department and for a final touch two basements were built, one to take care of the rubber stock and one for the sale of work clothes.

Plans for Addition.

Plans are going forward for the probable erection of a two to three story building. The store now has a frontage of 45 feet with a depth of 65 feet. However, there is a lot extending back over 40 feet with a 45 foot width and this will also be included in the building.

Starts Big Sale Thursday.

Mr. Kantrowitz will start on Thursday, in honor of his 25 years of business life in Kingston, the greatest sale he has ever held, his Silver Jubilee Anniversary Sale, with extra sale values. Read the editions of The Kingston Daily Freeman and Kingston Weekly Freeman for all Jubilee sales news.

Receives Congratulations.

Among the letters of congratulation received by Mr. Kantrowitz are the following:

this important position as he was born and brought up in the custom tailoring field, his father having had a place employing over 15 tailors.

It was Mr. Kantrowitz's desire to go in business for himself that prompted him to open up a custom tailoring store and he chose Kingston as the field of his future business career.

He opened his first store at No. 42 North Front street and soon his business had increased to the point of hiring additional help. One of these, Louis Adloff, is still in the employ of Mr. Kantrowitz as manager of the footwear department.

As time passed and the custom of having clothes made to measure decreased, Mr. Kantrowitz added men's ready-to-wear suits and a line of furnishings.

Sought Larger Quarters.

It finally was necessary to seek larger quarters and so the store at 47 North Front street was taken over. Here was featured mostly ready-to-wear suits and furnishings but a department still featured custom made-to-measure clothes.

In 1917 Mr. Kantrowitz purchased the building which he now occupies, Nos. 46 and 48 North Front street. In 1918 he took possession but did not occupy the whole store. At first only the part at 46 North Front street was occupied. Then a line of shoes was taken in. In relation to this, Mr. Kantrowitz tells an incident the memory of which always causes him to smile.

Tells Story of Development.

It seems that in the evening the road salesmen of various wholesale houses were accustomed to come in

There's no need to market every day—two or three times a week are sufficient for the housekeeper who has the new Model 95 General Electric Refrigerator. This popular size is so roomy, in spite of the small doorspace it occupies, that it holds several days' supply of food for even a large family.

Of course there are sizes for smaller families, but if you have a household of four or more, buy this larger size and you'll quickly see how right you were in choosing. It makes available at one time 25 pounds of crystal ice cubes.

As you know, the General Electric Refrigerator is quite different from all

others—truly "years ahead" in design. All its mechanism is on top, sealed in an air-tight steel casing. You never oil it, never worry about it at all. Radiation from the coils mounts constantly in a gentle upward air current that keeps dust from settling. It stands on legs with ample "broom-room" underneath. In every way it is the easiest-to-keep-clean... the most sanitary refrigerator.

Efficiently automatic, exceptionally quiet, economical to operate and as easy to connect as an electric iron, this Model 95 has been the choice of many buyers. It is now offered at a new low price.

Flashes of Life Sketched in Brief

(By The Associated Press)

New York—Gene Tunney supposes that the public prints will have him engaged to at least three more girls this year. During the last two years, he says, six different ones have been mentioned as his fiancée.

Boston—Jack Dempsey, who, some folks suggest, is scouting heavy-weight possibilities for Tex Rickard, is to be the announcer at a scrap here tonight. His voice should get a good tryout. The fight is at Braves Field.

New York—For \$1,500 Amelia Earhart endorsed in advertisements the brand of cigarettes used by her transatlantic flight companions. She did it deliberately, she has written Commander Byrd, so she could make a contribution to his Antarctic expedition which otherwise would have been impossible. The commander, in a reply expressing appreciation, calls it an act of astonishing generosity.

Hampton Bays, N. Y.—Among those voting for Smith in November will be six Smiths—the governor, Mrs. Smith, two daughters and two sons, one of whom will cast his first vote for father.

New York—Joseph F. Rutherford, preacher and foe of organized Christianity, announces that the most extensive and expensive radio hookup in history will be used by him next Sunday morning for an address in Detroit. Ninety-six stations will be employed an hour and a half. The largest hookup hitherto has been 85 stations for a radio dinner. The cost to the preacher may be guessed from the fact that in January a motor car company paid \$42,000 for a hookup of 47 stations for an hour.

Budapest—The money made by Vilma Banky in Hollywood seems to have started something. Movie making in all its branches is to be taught in all public schools. Theatres must admit pupils free.

New York—A necessity of the near future in all countries, in the opinion of Professor Otto Schreiber, is being police. The professor, who holds the chair of aviation law and air traffic regulation at Kingsburg University, is here on a visit.

Washington—Miss Mateline Lee, 15, of Henderson, Tex., has collected and mounted specimens of 84 different kinds of trees. Her collection has been sent to the headquarters of the forest service and commended.

THE FINAL SALE OF THE SEASON

STARTS

WEDNESDAY, AUGUST 1st

DOORS OPEN AT 9 O'CLOCK SHARP

AN OPPORTUNITY THAT COMES ONLY ONCE IN A YEAR

A VALUE DEMONSTRATION THAT MEANS MORE QUALITY—MORE STYLE AND MORE ECONOMY FOR YOU AND MORE FRIENDS AND MORE CUSTOMERS FOR US.

For value giving this August Clearance Sale is Unparalleled. Thousands of Dollars' worth of the Highest Grade Merchandise Sacrificed to effect immediate clearance. Not in our business career on Wall Street have we taken such losses as we will take this year to make this sale the Biggest Money Saving Event in the History of Kingston.

CLEARANCE OF COATS, SUITS, DRESSES, MILLINERY, HOSIERY, UNDERWEAR, at such low prices that they will echo from one end of the county to the other.

It is a sale that offers such special inducements that women of Ulster County and vicinity should exert every effort to come and share in its vast advantages.

Our final sale of the season is too well known to every woman in the vicinity to pass unnoticed. This sale in particular is our greatest clearance of outer apparel in recent years. An over-purchase and extraordinary conditions make it imperative to turn our stock into cash at once.

NOT ONE PIECE OF MERCHANDISE WILL BE CARRIED INTO THE NEXT SEASON. NO MATTER WHAT LOSSES WE SUSTAIN EVERY GARMENT MUST BE TURNED INTO CASH.

NEVER WERE SUCH VALUES QUOTED BEFORE.
